

FOR IMMEDIATE RELEASE:

**Aeroturn Wins Prestigious New Product Of The Year Award
From Security Today at GSX 2018**

Leading CT-based turnstile manufacturer receives new product of the year award for its portal dual barrier man-trap turnstile in the perimeter protection category.

Oxford, CT – October 3, 2018, Aeroturn LLC, a leading turnstile manufacturer that offers 100% Made in The USA turnstiles, today announced that the company has won the prestigious [New Product of the Year Award](#) in the perimeter protection category from [Security Today](#) for its Portal Dual Barrier Man-Trap Turnstile. The New Product of the Year Award is now in its tenth successful year and the program honors the outstanding product development achievements of security equipment manufacturers whose products are considered particularly noteworthy in their ability to improve security.

Aeroturn’s Portal Dual Barrier Man-Trap Turnstile was developed by Aeroturn due to end users wanting to improve throughput, while maintaining the highest level of security for locations requiring extreme vetting of personnel. Typical man-traps require security personnel to usher passages and at times even disable current equipment due to the very low throughput; max of 2-3 per minute. Built on the Aeroturn Portal platform; this translating hinge motion never has the swinging glass panels moving towards a pedestrian, making it an extremely safe option. The Dual Barrier Man-Trap improves throughput up to 10 passages per minute without any compromise at the specific security checkpoints; making this an ideal turnstile solution for federal and non-federal locations where the highest throughput is required while maintaining man-trap level vetting.

“With this incredibly secure machine, Aeroturn’s Portal Dual Barrier Man-Trap Turnstile brings the industry’s best perimeter protection mechanism to the table and offers additional benefits that include: 5-Years / Zero-Maintenance Warranty, a 10 million passage guarantee, 100% Designed & fabricated in CT-USA, 10,000 cycle factory burn-in, & Factory direct delivery & installation,” states Michael Stoll, VP of Technical Sales & Marketing at Aeroturn. *“We are extremely proud to have received this award from Security Today and recognized for delivering the very best turnstile solutions to our clients.”*

The company's customer first philosophy is the driving force behind its success. Customers can rely on Aeroturn to deliver the very best in turnstile solutions now and in the future. For further information on Aeroturn turnstile solutions, visit www.aeroturn.com.

About Aeroturn LLC

Based out of our 100% Made in USA Oxford, CT location, Aeroturn has been offering integrators and end users this century's turnstiles that include a comprehensive range of turnstile products.
